Rebuild Rosebud Hospital

The Peninsula deserves better.

The outdated hospital and inadequate services mean patients often need to travel more than an hour to Frankston, even in an emergency.

Labor continually refuses to deliver.

The new Liberal Team will commit to a **full redevelopment, investing \$340 million to Rebuild Rosebud Hospital.**

Fixing Local Potholes

Our state roads have been neglected for years under Labor, leaving our local roads unsafe.

Anthony has a proven track record in upgrading our local roads, he did it on Council and **he'll do it again** as the Member for Nepean.

With never-ending delays to upgrades, our community needs a strong local champion in its corner.

Help the Homeless

Labor has failed to support the vulnerable on the Peninsula.

Our plan will take a coordinated approach to outreach, and deliver basic needs, medical and housing support.

We will better fund our local support groups as well as organisations that help **address the root causes that can lead to homelessness.**

Reduce Local Crime

Victoria is facing its most serious safety crisis in 20 years, with crimes occurring every 50 seconds. We have a plan to make Victoria safer by delivering an **additional 3,000 police**, boosting PSO numbers, **reopening over 40 police stations** and improving response times.

This will make a real difference in Nepean and **give Victorians the safe communities they expect and deserve.**

I'm asking you to support Anthony Marsh as the new Member for Nepean so our team can deliver for you.
