A valid vote is a 1 in a box above the line (more do not count) OR at least 1-5 in preferential order below the line.

When you vote 1 above the line, that party decides your preferences. SOME DO DODGY PREFERENCE DEALS.

VOTE 1 ABOVE THE LINE for a party with strong policies and climate-friendly preferencing (in blue box below left).

OR VOTE BELOW THE LINE FOR ALL 12 better parties from best to worst (number all candidates in order of preference) – but beware of mistakes!
