What I am fighting for

Continue fighting for fairer gun laws and increased penalties for violent gun crimes

No new National Parks and improved access to public land for all users.

Increased funding for State Forest and Game Reserve management.

Massive increase in funding for boat ramps and recreational fishing facilities.

Increased support for disaster-affected farmers.

More funding to fix the appalling state of rural roads.

Improved passenger rail services for rural areas.

Stopping the mismanagement of water.

More investment in our poorly funded regional schools for our children.

Continue fighting for right-to-farm issues.
