## *My priorities for Nepean are clear:*

I will get the hospital I was born in rebuilt, protect our natural environment, save Arthurs Seat from inappropriate development, and support community-led initiatives to mitigate climate change.

I'll work hard to get our fair share of investment in infrastructure and affordable housing, and back the people working hardest for those who need it most.

I'll fight for a better deal for local businesses and producers paying unfair taxes. And be a champion for our award-winning tourism operators and our creative community on the Southern Peninsula.

*“This by-election is an opportunity to ensure Nepean’s voice is heard loud and clear in Parliament”*

*“My focus will be on listening closely to what our community has to say, and I’ll fight every day to turn those priorities into action.”*
