MY POLICIES

1

I believe that the use of a Business Tax is a failure in an infrastructurally (Govt. and Business) advanced, small; - by world statistics- population. By removing Business Tax, we could become a successfully self-reliant and Independent Country.

2

I therefore ask that the Citizens of Prahran consider voting for me as a start to a discussion on the pros and cons of the need to remove all Business Taxes from the Economy Legislature and then to re-adjust Income Taxes percentages (as Individuals) of these Businesses for the statistical success of increasing money available for:

- Individuals Cost of living,
- Individuals/families Home loans and Rental affordability: - with the bonus of also encouraging more children for couples,
- Individuals in Family businesses as competition for the owners of Big Businesses, and,
- Individuals Full Time work availability.

NB

As an additional Policy: - if I was in Parliament, I would also raise a Bill to mandate: **"That all Legislature, all Acts and all Judiciary findings are GOVERNMENT actions that must follow a statistical model to give truth to each other as Legislative, Executive and Judiciary and THIS "GIVING" can only occur under an oath of statistical TRUTH:- therefore with any such oath - to set and publish all consequence for a finding of statistical failing of any Government Department or any Individual/s or Group/s to tell the truth".**

ALAN MENADUE

I am a 4th generation Australian, grew up in country Victoria and went to Wunghnu Primary School and Numurkah Secondary School. I have previously represented my country in the ADF as a Sergeant in the RAAF (1981 to 1992) and am now classified as a Veteran.

I have 2 children and 2 grandchildren living in Victoria and I am passionate about making sure all of them have secure futures. I have lived in Public Rental since 2013 and have never owned a home which gives me the passion to represent my fellow renters.

I have, in the past and continue now, to advocate that The Government must be mandated for the Individual, by and from need, want, energy and truth: - and as such must represent the people from the "bottom up".
